Safari Anasa

9 DAY ITINERARY

'Anasa' is the Swahili word for heaven and in partnership with Lemala, TWC and Nomad camps and lodges we have created what we believe is the most incredible 8-night safari tour for the green season.

The verdant beauty of the savannah, plains and crater can only be appreciated during the green season from December to March and what's more, is that there are many offroad areas to travel and less visitors generally, so you will be spoiled with the greatest concentration of wildlife and at times feel completely alone in the wilderness.

After an exciting game drive, our select 5-star lodges are set to relax you with sunsets, cocktails, camp fires, a superb dinner and a good night's sleep; getting ready for the next day's adventure.

Yours exclusively from,
Extreme Expedition Ltd.
